CL20 DIGITAL PIANO

TOUCH

Kawai's new Advanced Hammer Action III brings the feel of a real grand piano to the CL20. Its Graded-Hammer action design offers superb response and a smooth feel that will satisfy the needs of piano players and music educators alike.

TONE

The CL20 uses our critically-acclaimed Harmonic Imaging™ sound technology... the same technology used in all our award-winning digital pianos. Harmonic Imaging creates acoustic piano sounds of remarkable depth, expression and realism. You'll also be impressed with the other sounds of the CL20... Strings, Electric Piano, Organ – 8 sounds in all. And, any two sounds can be layered together in a DUAL mode.

CONCERT MAGIC

Playing the piano is a dream that most people share, yet few have realized. For the aspiring pianist, there's Concert Magic™... a fun and interactive way to play piano, even if you've never played before. With Concert Magic, anyone can experience the thrill of playing real music. A total of 40 Concert Magic songs are available on the CL20 for listening or playing

SLIM AND COMPACT DESIGN

Because of its slim and compact design, the CL20 will not take much space in your home. With its wood grain, rosewood cabinet you'll find it easy to coordinate the CL20 with your home decor.
