 S E R I E S  
 CN41 • CN31 • CN21

## EXCEPTIONAL TOUCH, TONE & VALUE

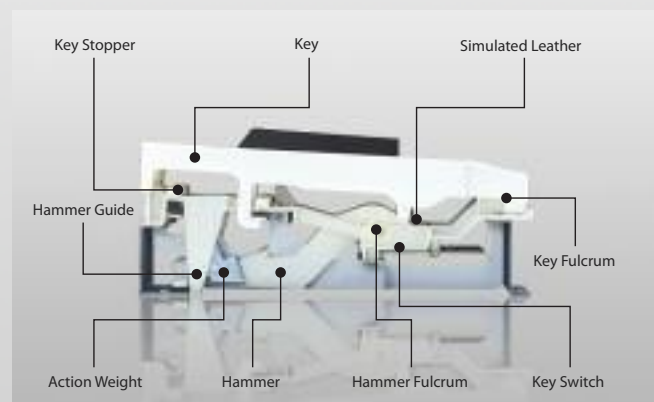

The CN Series combine KAWAI's critically acclaimed Harmonic Imaging™ sound technology with the AHA-IV graded-hammer action to establish a new standard in digital piano value and performance.

## ADVANCED HAMMER ACTION IV

Developed to accurately represent the touch of a traditional grand piano, the redesigned Advanced Hammer Action IV keyboard adopts KAWAI's remarkable springless construction for a smoother, more natural, piano feeling. Just as acoustic pianos utilize heavier bass hammers and lighter treble hammers, the AHA-IV keyboard also employs different hammer weights, appropriately graded for each playing range. The innovative Acoustic Reaction™ technology provides greater stability during fortissimo passages, while preserving delicate pianissimo control satisfying the demands of even the most discerning pianist.

## HARMONIC IMAGING™ TECHNOLOGY

The authentic sound of KAWAI digital pianos begins with the world renowned KAWAI EX Concert grand piano. Placed inside an anechoic chamber, free of audio reflections, the rich sound of this world class instrument is meticulously analyzed and recorded by our Master Piano Artisans and sound engineers. The acoustic portrait of each note is later transformed into a precise three dimensional digital representation, employing KAWAI's proprietary Harmonic Imaging™ technology. This unique process faithfully reproduces the broad dynamic range of the original grand piano, from subtle pianissimos to thunderous fortissimos.

## SUPERIOR FEATURES

While being surprisingly affordable, the CN Series boast many industry leading features such as 96-note polyphony and half-dampering capability in all three models. Furthermore, with over 300 exceptional instrument sounds and a total of 9 authentic drum kits, the powerful CN41 model also boasts General MIDI Level 2 compatibility - a valuable feature and unique characteristic within this class of instruments.

## TRADITIONAL DESIGN

The piano is often the centerpiece of any room it occupies. The exterior appeal of the instrument not only contributes to a room's decor, but also enhances the aesthetic appeal of playing and listening to the instrument. Considerable attention to detail is given to the cabinetry and finish of the CN Series instruments. Borrowing traditional design elements from more expensive digital and acoustic piano models, the CN Series provides a touch of elegance for player and listener alike.

The traditional cabinet styling of the CN31 and CN41, with single piece wooden side panels.

At just 16.5 inches (42.5 cm) deep, the surprisingly compact CN21 cabinet is an attractive addition to any area.

## MULTI-TRACK RECORDER

An intuitive 2-track recorder is featured as standard across the CN Series range, with the flagship CN41 model capable of storing an impressive 30,000 notes in each of the three internal song memories. In addition, the introduction of USB to Device functionality allows performances to be conveniently saved to USB flash memory devices, and even supports playback of 16-track Standard MIDI Files (SMF), to take full advantage of the instrument's rich variety of internal sounds.

## PRACTICE & LESSON FUNCTIONS

The CN Series' powerful lesson function allows aspiring pianists to learn the piano using a built-in collection of songs from the popular Alfred Basic, Adult and Premiere piano course books. Each song can be played at various tempos, practicing the left and right hand parts separately, before eventually recording a practice session for self-evaluation.

## DIGITAL PIANO

# CN 31

The mid-range CN31 instrument possesses a variety of powerful features, delivering excellent value and impressive performance.

- AHA-IV graded-hammer action
- Harmonic Imaging™ sound technology
- Built-in Lesson function
- 2-Track, 3 Song recorder (15,000 notes)
- 3 digit LED display
- 36 Sounds
- 88 Concert Magic songs
- Three pedals, with half-pedal damper capability
- Matching Padded Bench

## DIGITAL PIANO

# CN 41

## STRONG PERFORMANCE

Rosewood

The flagship CN41 features a rich selection of internal sounds, USB device connectivity, and several advanced characteristics typically associated with premium models.

- AHA-IV graded-hammer action
- Harmonic Imaging™ sound technology
- Built-in Lesson function
- 2-Track, 3 Song recorder (30,000 notes per song)
- 2 x 16 characters LCD
- 307 Sounds, 9 Drum kits, GM2 compatibility
- 88 Concert Magic songs
- USB functionality, with 16-Track SMF record/playback
- Three pedals, with half-pedal damper capability
- Matching Padded Bench with Storage

## DIGITAL PIANO

# CN 21

The compact CN21 offers an outstanding introduction to KAWAI's advanced digital piano technology at an exceptional price.
